STOCKWISE™
Inventory Management Solutions

From free organization tools to full-service inventory management programs, our solutions allow you to better manage your inventory, improve productivity and reduce costs. These programs can be customized to fit your specific business needs.

ORGANIZE

Product Identification
Work with your SupplyWorks Account Executive or visit our website to determine the most important products for your stocking locations, including stockrooms and warehouses. This is the first step toward maintaining the right product mix and building your just-in-time inventory replenishment plan strategy.

Bin Labels
Organize your inventory and easily access products with our online Bin Labels tool. Each color-coded label includes the product's part number, description, image and barcode for quick and intuitive identification.

MANAGE

Shop Management Program (SMP)
This program is designed for any size customer who is looking to improve their inventory efficiencies through organization and technology. Special racks and bin boxes help you control your stocked products.

Vendor Managed Inventory (VMI)
Our VMI solution allows you to focus on your core business while we handle your inventory. This comprehensive on-site program includes the installation of infrastructure and a full-time employee to manage your stock and reduce your costs.

REPLENISH

supplyworks.com
Supplyworks.com is your complete ordering resource. Place your order from our selection of 140,000 products from your desktop or any mobile device. Track your order status, set up Favorites Lists, create a workflow or set up budgets. Check your order history or run reports. Supplyworks.com is more than an ordering website; it allows you to manage your facilities with greater efficiency and visibility.

Mobile App with Scanning Feature
Our free mobile app includes all of the convenient features of our mobile website, plus it enables you to quickly order items by scanning product barcodes on your bin labels or UPC codes on product packaging—all without specialized equipment.

Supplyware®
Accelerate your inventory check-in and checkout process with our comprehensive inventory management system. Supplyware manages inventory min/max levels, provides real-time visibility to your stock levels and usage and automates ordering and replenishment.
