

Think ahead.

# Make the safer choice

Change to paper hand towels today to meet the new hygiene standard

**70%**  
of visitors wish more facilities offered paper hand towels as an alternative to air dryers<sup>3</sup>

Drying your hands with a jet air dryer **produces more airborne droplets<sup>2</sup>**. Paper towels are the more hygienic way to dry hands by friction removing bacteria and the recommended choice in hygiene-critical environments.<sup>4</sup>

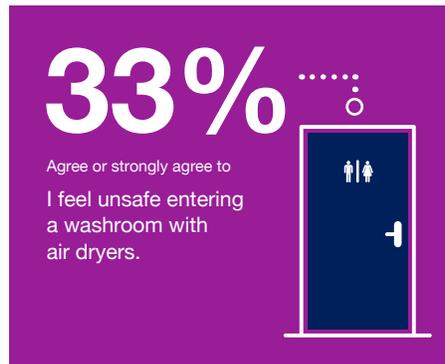

Jet air **dryers** spread up to **10x** more germs<sup>1</sup>

A majority of end-users prefer **paper hand towels** over air dryers<sup>3</sup>

## User preference has shifted to paper hand towels<sup>3</sup>

### More benefits:

#### Quicker hand drying

**62%** of end-users say they stop drying their hands before completely dry as air dryers take too long to dry their hands<sup>3</sup>

#### Multi-use and comfort

**75%** of end-users say they use paper hand towels to avoid touching different surfaces in public restrooms<sup>3</sup>

## Switching to paper hand towels has never been easier

Serve restrooms with different traffic flows, layouts and sizes. Offer hygienic systems that ensure hand towels are enclosed, dispense 1 towel at a time and avoid run-outs.

### Tork PeakServe®

- Offers a variety of dispensing options for compressed continuous towels to speed up restroom flow.
