

Think ahead.

Deliver touch-free hygiene at the restroom door

Less contact, improved hygiene.

Tork can offer you numerous ways to make the restroom experience less hands-on. Choose one of the following systems to ensure a touch-free exit at the restroom door. One less surface to touch means less contact, less germs, less illness.

Tork Xpress® Mini Multifold Hand Towel Dispensers - H2 System

- Ideal for low and mid-traffic environments using Elevation dispensers today
- ADA compliant for placement near the restroom exit
- Can be refilled before it is empty. A wide range of refill qualities are available

552120

552228

Tork PeakServe® Mini Continuous™ Hand Towel Dispensers - H5 System

- Ideal for environments using Tork PeakServe dispensers today in the restroom
- High capacity can be refilled before it is empty
- ADA compliant for placement near the restroom exit

552530

552538

Restroom Signage

- Remind patrons to take a towel to open the door
- Place on the mirror at the sink or next to the hand towel dispenser. Be sure to provide a trash can for disposal by the door to ensure a touch free restroom exit
